#### Measuring for Gloves

Start by measuring the hand you use the most. Then from the perimeter of the hand between the thumb and the fingers loop around and make a note of the size in CMs.

Remember if you are planning to wear undersocks as well, you may want to go up a size for comfort or if you fall in between sizes, choose the next largest size.

LL	8	20 - 21
LXL	8,5	21 - 22

#### Measuring for Boots

Remember to wear your normal riding socks and if you're an all-year-round biker, you might want to make an allowance for the thicker winter socks.

#### Footlength Measurement

Place both feet on a piece of paper and carefully draw the outline of each foot. Keep the pen pointing straight down to get a true outline! Then measure the lengths of both outlines from the top of your big toes to the back edge of your heel. If your two feet measure differently, take the longer of the two measurements.
